01 PROFILE

As a Full Stack Web Developer with experience creating web applications using JavaScript, Git, React, jQuery, Python, MongoDB, CSS, MySQL, and HTML, I have a proven track record of success. I have worked at Dynamiqtec, where I developed and maintained web applications from October 2022 to January 2024. My educational background includes a Bachelor's degree from Rauf Denktas University. I am seeking a Full Stack Web Developer position where I can apply my skills and contribute to the success of a dynamic team. My past accomplishments include successfully creating a full stack web app using React and Python. I am motivated and eager to continue learning and growing in my career.

02 EMPLOYMENT HISTORY

Oct 2022 — Jan 2024

Full Stack Web developer at Dynamiqtec

As a Full Stack Web developer at Dynamiqtec, I have been responsible for designing, developing, and maintaining web applications using a wide range of technologies including JavaScript, Git, React, jQuery, Python, MongoDB, CSS, MySQL, and HTML.

- Collaborated with cross-functional teams to gather requirements and translate them into functional specifications.
- Designed and implemented responsive and user-friendly web interfaces using HTML, CSS, and JavaScript.
- Developed server-side logic and APIs using Python and Flask for efficient data processing and integration.
- Utilized Git for version control and collaborated with team members through code reviews and pull requests.
- Worked with databases including MongoDB and MySQL for data storage and retrieval.

Past Accomplishments:

Successfully created a full stack web application using React and Python.

Future Goals:

Looking for a full stack position where I can continue to develop my skills and contribute to the success of a dynamic tech company.
